PERSONAL

Born: January 17, 1980, Moscow, Russia.

Citizenship: USA, Russia (dual)

EDUCATION

Ph.D. SUNY Stony Brook, August 2008

Ph.D Advisor: Dusa McDuff

B.S. Mathematics, SUNY Stony Brook, 2002

LANGUAGES

Russian: native

English: fluent

Spanish: proficient

APPOINTMENTS

Visiting Assistant Professor, University of Massachusetts, Amherst 2008- 2011

Postdoctoral Fellow, MSRI, spring 2010

Postdoctoral Fellow CRM-Montreal, August 2011- August 2013

Postdoctoral Fellow, ICMAT, Madrid, 2013-2015 december

Profesor e investigador Titular A, CUICBAS, University of Colima, start March 2016

LONGER TERM PROFESSIONAL VISITS

Tel Aviv University, winter 2009 (Invited by Leonid Polterovich)

RIMS Kyoto University, spring 2014 (Invited by Kaoru Ono)

RESEARCH INTERESTS

Interests: I am attracted to conceptual approaches of category theory, topology and algebra in differential geometry, especially symplectic geometry, and in dynamical systems. I also have a constant attraction to mathematical ideas born in physics.

Interests more specifically: Floer-Gromov-Witten theory and its interactions with Hofer geometry and algebraic topology. Other recent interests (resulting in publications or preprints): sky catastrophes in dynamical systems, rigidity in locally conformally symplectic geometry, geometric quantization and twisted-untwisted K-theory, generalized smooth spaces and smooth Kan complexes, incompleteness for stably computable formal systems.

TEACHING EXPERIENCE

3 years of lecturing experience as a graduate student at Stony Brook university. With 1 course per semester load. These were very large calculus sections with 100 or more enrolled students per section. I also TA'd at Stony Brook for calculus, business calculus, and graduate algebraic topology (twice).

Another 2.5 years of lecturing experience as a visiting assistant professor at University of Massachusetts, Amherst. (Away for half a semester at MSRI). I was doing 2 courses/sections per semester. Each section had about 20-30 enrolled students. These were calculus and multivariable calculus sections.

6+ years of teaching experience at the University of Colima, with a diverse teaching portfolio from basic classes like calculus and discrete mathematics to more advanced classes on algebraic topology and differential geometry. All classes are undergraduate as we do not have a graduate program.

SERVICE

MENTORSHIP

Advised a student on an undergraduate thesis, “Geometric methods in topology”, she is now working on PhD at UMass Amherst.

Regular participant in outreach activities for attracting high school students to mathematics, since 2016, Colima.

Responsible for advising various students, on academics and personal well-being, Colima, since 2016
Presented a number of colloquium talks to high school students, in Colima.

OTHER SERVICE

I assist in the yearly mathematics competition for high school students which is organized by our department. In particular, I am involved in grading of the exams.

Co-organizer for the PRIMA mathematical congress in Oaxaca, 2017

Co-organizer for the weekly seminar at the University of Colima, since 2016

Organizer for the student seminar Fall, 2019

Elected member of the university “technical council”, (university senate), since 2019.

Member of “academia matematica” which is in charge of organizing academic activities and has various administrative duties, like course selection for each semester, and distribution of teaching duties.

Referee for mathematical journals, and reviewer for Zentralblatt.

Co-organizer for symplectic geometry seminar at CRM-Montreal for the 2012-2013 year.

FELLOWSHIPS AND AWARDS

Department research award, 2006 Stony Brook
Department travel grant, 2007 Stony Brook
NSF travel grant 2006, 2005
Chair's award for outstanding thesis, 2008 Stony Brook
MSRI Postdoctoral fellowship, spring 2010,
CRM-Montreal postdoctoral fellowship, 2011-2013
ICMAT Madrid postdoctoral fellowship, 2013-2015

GRANTS

SNI researcher grant, nivel 1, 2016- ongoing
